SUMMARY

Software engineer and web/SEO professional with experience building and testing enterprise PeopleSoft ERP features, developing WordPress websites, implementing SEO improvements, and translating Figma designs into functional web/app interfaces. Skilled in WordPress, CSS, JavaScript, PHP, SQL, PeopleCode, React, Next.js, technical SEO, unit testing, system testing, and UAT support. Practical problem solver who combines developer discipline, SEO execution, clear communication, and careful attention to requirements.

EXPERIENCE

Associate Software Engineer

Accenture in the Philippines

July 2024 - Present | Cebu, Philippines

- Build, maintain, and test PeopleSoft ERP pages, features, and data structures using Application Designer, Application Engine, PeopleCode, SQL, and App Classes.
- Perform unit testing, system testing, and UAT support to validate technical requirements across success, error-handling, single-row, multi-row, and zero-row scenarios.
- Investigate issues, document findings, clarify requirements, and retest changes with users and stakeholders through the build and validation cycle.

WordPress Developer and SEO Specialist

Skipetro Digital

November 2021 - July 2025 | Remote / Philippines

- Built and refined WordPress pages and landing pages from Figma designs and client briefs using Elementor, Avia Builder, CSS, JavaScript, and PHP.
- Supported SEO through keyword research, site audits, competitor analysis, metadata improvements, content structure, internal SEO elements, and technical page updates.
- Improved site performance and maintainability through lazy loading, image optimization, JS/CSS cleanup, and ongoing updates for websites with 200+ pages.
- Used RankMath, Ahrefs, SE Rankings, and RanksPro for SEO research, audits, tracking, and recommendations.

Developer Intern

Symph Inc.

January 2024 - May 2024 | Cebu, Philippines

- Translated Figma designs into functional pages, components, and features using React, React Native, Next.js, Firebase, JavaScript, TypeScript, and Google Cloud.
- Collaborated with project managers, senior developers, and peers through task prioritization, code/design reviews, implementation feedback, and agile delivery.
